

# Sound Scavenger Hunt

There are so many different kinds of sound in our world,  
and each sound is unique!

Sounds can be loud (forte)  
or quiet (piano).

Just like how sounds  
can be forte and piano,  
or loud and quiet,  
sounds can also be  
high, low and  
everything in between.

# Sound Scavenger Hunt

Music can also make us feel certain ways. It can make us happy, sad, angry, excited and even more, sometimes all in the same song!

Walk around your house, neighborhood or anywhere where there is sound and fill out the sound scavenger hunt with all the unique sounds you hear!
